

GAWBL-Summit 2018

German-Arab Women Business Leaders

15-17 October 2018, Munich - Bayerischer Hof

Daria Revina

Founder Women in Green Energy, Qatar

.....

Women in Green Energy initiative was born out of my passion and determination for renewable energy development, taking its stance as the most prominent and wide spread source of energy. Being myself a female professional in this industry for many years now I realize the importance of wider participation and leadership of female professionals to make a green energy revolution our reality. There so many ambitious and talented professionals and businesswomen out there who are meant to become the driving force of this transition regionally and globally.
